## 🎓 Education

**K.S.R. College Of Engineering**
**B.E - Computer Science and Engineering, CGPA: 8.5**                               *Namakkal, Tamilnadu*

A 2nd-year CSE student passionate about data analytics, problem-solving, and design. I enjoy finding patterns in data and turning them into meaningful insights. I love exploring new tools, UI trends, and ideas that help me grow in tech and analytics.

## 📊 Skills

| Microsoft Excel | Python | Java | Java | JavaScript | C++ |

## 👤 Summary

**Projects**

**HEALON – AI-powered Rural Healthcare Platform**

- Bridged rural healthcare gaps by integrating AI-driven health assessments.
- Enabled virtual doctor consultations and real-time medicine availability.
- Tools/Technologies: AI, Web Development, Real-time Data APIs.

**ROUTEMATE – Live Bus Tracking Application**

- Developed a platform for instant bus tracking with live location updates.
- Provided driver/conductor info, accurate arrival times, and delay notifications.
- Tools/Technologies: Web/Mobile Development, GPS Tracking, Real-time Updates.

**SKILLCONNECT – Smart Job Matching Platform**

- Built an advanced job portal with filters by skill, location, pay, experience, and availability.
- Verified job postings to ensure authenticity and user trust.
- Tools/Technologies: Web Development, Database Management, UX Design.

**FASHIONISTA – Custom Fashion Design Platform**

- Empowered users to design clothing reflecting personal identity.
- Connected designers and boutiques via a scalable and trusted ecosystem.
- Tools/Technologies: Web Development, E-commerce Integration, UI/UX Design.

**PRODUCTIVITY TRACKER – Student Productivity Prediction Tool**

- Designed a simple tool predicting productivity based on mood, study time, and distractions.

- Helped students manage time efficiently and optimize study habits.
- Tools/Technologies: Web App Development, Data Analytics, Machine Learning (optional).
